

Better is our mission, improving lives through personalized health and care.

San Juan Regional Medical Center, a community owned, non-profit health system, comprises over 200 providers and 18 clinics across two states and three cities. Better is our mission, improving lives through personalized health and care.

As the region's community health provider, we deliver an exceptional breadth of specialized care dedicated to serving the Four Corners.

CHOOSE BETTER: CHOOSE SJRMC

Delivering personalized patient care

Employs more than 1,900 residents who are vested in this community

Community-owned and operated

Services offered to patients across two states and three cities

Dedicated to serving our community since 1910

The region's largest network of healthcare providers

Offering an array of comprehensive services

A leader in health and wellness through education and support of local programs and activities

A family of compassionate and dedicated caregivers

When you choose San Juan Regional Medical Center, you gain access to the region's largest network of healthcare providers, giving you more convenience of care, more choices of specialists and more healthy programs to live better here.

As your community owned not-for-profit hospital, San Juan Regional Medical Center cares for thousands of Four Corners residents each year. While our patients benefit from the personalized care we provide, it's really our entire community that prospers from our presence.

"San Juan Regional is making life better for people here in the Four Corners, not only because of their care and what they did for me, but they're also community people and they really care." -Walter Dorman, Community Member

"It feels really good to be able to provide the services that we do here to this community." - Dr. Philip Ernest

LIFE BETTER HERE

Comprehensive Health System

- 198-bed hospital, level III trauma center
- Community-owned and operated

BENEFITS OF A

TRAUMA CENTER

Having a trauma center like San Juan Regional Medical Center in Farmington, NM offers significant benefits to the community by providing immediate and specialized care for traumatic injuries.

Timely and Specialized Care:

As a Level III Trauma Center we provide immediate and comprehensive care for patients who suffer traumatic injuries.

Community Preparedness:

As a trauma center we collaborate with local Emergency Management agencies to ensure we can provide care to patients within our community in the event of a large-scale emergency.

Economic Stimulus:

From our very presence we attract skilled professionals, support services, and generate revenue, contributing to the economic growth and development of our community.

In summary, San Juan Regional Medical Center enhances community well-being by saving lives, improving outcomes, and supporting overall health and economic vitality.
